List of courses available in MOODLE

Most of the courses listed here are in **e-learning** form, with learning materials available and often with control quizzes. Some other courses are recordings of online lectures.

To **access most of the courses**, use **university access data** (CAS username and password - same when accessing SIS). The courses are then directly in the Moodle or are linked to another course environment (e.g. MOOC).

To access the **Career Management & Entrepreneurship** course in the DocEnhance use Guest login. To access **Coursera** courses, you need to register for a free Coursera account.
