Charles University is interested in staying in contact with its graduates, and therefore also works with this target group.

The Alumni Club is being formed within the university. It will be a modern successor of the previous Society of Graduates and Friends of Charles University – Carolinum. A graduate card is being prepared – a card of the Alumni Club member, which will bring a number of benefits to its holder. During an academic year, members will be invited, e.g. to a garden party in the Wallenstein Garden, to the Christmas meeting of Charles University as well as to many discussions and meetings with major guests of Charles University. Discounts for graduates in university facilities (Dormitories and Refectories, the Sports Centre, Karolinum Publishing House, the Central Library of Charles University) are being explored, as well as within the Lifelong Learning Programme and with external businesses.

Graduate societies are active at practically all faculties of Charles University. For the current list of societies visit the page here.
